RESIDENT MANUAL**

Revised 2021

**ROBIN KEENER, FOUNDER  
KATELYN SHEPHARD, EXECUTIVE DIRECTOR  
STEPHANIE DIBELLA, PROGRAM MANAGER  
Office: (410) 399-2904**

## **PROGRAM EXPECTATIONS**

Admission to Homecoming Project requires a one-time, **non-refundable** payment of \$1,300.00 which includes the intake payment of 800.00 and rent and program cost for the first month. The weekly charge for our program is \$125.00 for rent and program services including utilities, groceries, and transportation. An additional amount of up to \$30.00 is charged for the client's weekly allowance. Other costs may also include periodic urines tests and fines issued for violation of our resident manual.

Learning self-discipline, self-respect, cooperation, and consideration for others is essential to recovery and personal development. **You are expected to develop a way of life in which honesty with self and others is an absolute requirement!** Self-discipline, self-respect, cooperation, consideration for others, and honesty must be practiced to be learned. After 60 days and a letter requesting to move to Level II, the staff will evaluate all residents to their suitability to the house and eligibility to successfully move to Level II. To support your journey in learning these qualities, the following rules and regulations have been developed:

**Please note: Program rules are ultimately a staff decision. Know this as a basic guideline for our policies and procedures. UNDER CERTAIN CIRCUMSTANCES THESE RULES CAN BE MODIFIED BY THE EXECUTIVE DIRECTOR AT ANYTIME WITHOUT ADVANCE NOTIFICATION.**

### **Sober and Straight**

You will be expected to remain free from alcohol and other mood-altering chemicals during your stay here.

### **Dating or Existing Relationship Policy**

There is a NO DATING policy in effect at Homecoming. There will be NO romantic involvement this includes **phone contact, letters, e-mail, etc.**

A resident entering Homecoming that is in a marriage where the spouse is supportive and drug/alcohol free, will meet with staff to set appropriate boundaries regarding any contact, visitation, activities away from the house, or overnight visits.

A resident entering Homecoming that is involved in a serious, exclusive relationship will be expected to put that relationship on hold while in our program. Once a resident has reached Level 4, the counselor, if appropriate, can choose to set up a family conjoint session to discuss post discharge arrangements.

Socialization is limited to women with strong recovery (at least one year clean & sober) and approved family members. Residents may accept rides to and from work, when needed, from female co-workers with prior staff approval. **Socializing & fraternization with men is not permitted.**

Any violation of these policies could be grounds for immediate dismissal.

## **Medical Information**

**Medications:** All medications (INCLUDING OVER THE COUNTER MEDICATIONS) must be cleared with the house staff. Unauthorized possession of any medication or use of another resident's medication will result in immediate discharge from the house! NO narcotic medications will be allowed in the house for any reason. If a resident is on approved medications (such as an anti-depressant or mood stabilizer) and under a physician's care, she is not permitted to discontinue or alter medications in any way unless instructed to do so by the prescribing physician. Homecoming Project staff monitors the use of psychotropic medication to ensure they are being taken as prescribed. You are required to report to the House Manager to retrieve your medications at the designated time.

**Illness:** Report any illness to staff on duty immediately. You must first speak with a staff member if your illness requires staying home from work. If you need emergency medical care, staff will either transport you or call an ambulance to transport you to Upper Chesapeake Medical Center. If you are out of the house on a pass and an emergency occurs that requires medical treatment, if capable you must notify staff immediately by telephone upon reaching the hospital.

## **Mental Health Assessments**

We are a recovery home for women whose primary illness is alcohol or drug addiction and whose health conditions do not prohibit them from participating in all phases of our treatment program. We also welcome women with relatively stable psychiatric disorders such as depression and anxiety, **providing they have a designated psychiatrist or mental health worker who can monitor and prescribe needed medications.** These arrangements must be in place prior to arrival at Homecoming.

Often the women arrive at the house with no insurance or financial means to pay for their follow-up mental health care, including renewal of prescriptions. In order to meet their needs, we must establish the means for them to apply for health insurance which can take weeks for approval. Further, the mental health resources in our area are limited and enrollment in their services can also take considerable time.

While we recognize that some need additional help with co-occurring symptoms, we are also strong believers that the spiritual program of Alcoholics Anonymous and Narcotic Anonymous can go a long way in helping to restore emotional and spiritual health. We have witnessed many women who have suffered lifelong depression and anxiety, emerge as healthy and grateful women who have gone on to help others locked into addiction and mental health problems.

## **Confidentiality**

**You may not share any information about any resident with anyone outside of Homecoming (this includes family members, and people in the program). This includes involvement in the program, urine testing, levels, strikes, dilemmas, discharges, etc.**

(Confidentiality Continued)

Do not gossip about each other!! Ask yourself if the information that you intend to share is really important for another resident to benefit that person. **Check your motives!**

Be aware of the accidental ways that you can break the confidentiality of another resident. Mentioning someone 'in the rooms' that is now at Homecoming or that was asked to leave Homecoming is a violation of confidentiality. **Sharing information with staff members out of concern for one another is not.**

### **Breach of Confidentiality**

Remember if you are uncertain about something or do not know the answer, ask.

If you need help with something tell your case manager. Homecoming staff is always willing and ready to help you in anyway they can.

We are not mind readers and good communication is a must.

To ensure that we understand one another, try asking “what did you hear me say?” when communicating with staff or another resident.

Acceptance is important in recovery. If you don’t like an answer you are given or find something here that doesn’t suit, read page 417 of your 4<sup>th</sup> edition Big Book.

Welcome to Homecoming. We are happy to have you join our family.
